

Roofing Seminar

The Evans Roofing Company, Inc. is pleased to offer the second seminar for 2016 on FiberTite and Siplast roof systems.

This **free** and informative seminar will discuss the following:

- FiberTite is a leader in the KEE single-ply roof membranes. Mr. Dave Killen will be presenting a general overview in the nature and history of KEE including its introduction into roofing and the subsequent development of an ASTM standard.
- Siplast is a major player in the modified membrane marketplace. Mr. Sean Moran will be representing Siplast and will be discussing sustainable Roofing & Waterproofing Solutions. The presentation includes a review of the sustainable/green properties and benefits of lightweight insulating concrete roof insulation systems, solvent-free and no VOC applications, and cool roof systems with a focus on how these systems can contribute to sustainable building envelope design.

A complimentary lunch will be provided after the presentations.

Don't hesitate, this seminar will fill up quickly... RSVP by March 15, 2016!

Please call or email your reservations today!
